Abhishek Dwivedi

Technology Architect / AI Engineering Manager at Accenture
Gurgaon

Summary

AI Engineering Manager and Technology Architect with 14
years of experience in software delivery, product and platform
engineering. I have worked on technologies like Conversational
Artificial Intelligence, Customer Experience, Enterprise Social
Collaboration, User Engagement (Gamification), Enterprise
Knowledge Management, Enterprise Content Management
with exposure on various industries like Telecom, Oil and Gas,
Entertainment, Banking etc.
Until recently, I am part of Accenture Data and AI capability at
Accenture and leading Conversational AI and Customer Experience
platforms development as Engineering Manager.
I am a collaborator who always thrives to learn new technical skills.
I have exposure on many enterprise applications and platforms
on various hosting models like Hosted/Cloud/SAAS/PAAS etc.
Colleagues know me as a highly creative who can always be trusted
to come up with a new approach.

B.Tech. degree in computer science from UP Technical University,
India.

Always interested in hearing from former colleagues, managers, or
just interesting creative folks, so feel free to contact me if you'd like
to connect.
